MEMORANDUM FOR: Project Comptroller
SUBJECT: Storage of Equipment
REFERENCE: attached Memorandum with enclosures from
Deputy Director of Security dated 24 July
1956.

STAT

1. Investigation into the delay in claiming the electronic test equipment covered by Air Bill No. 16-DCA-13097 indicates a weakness in the system used to alert consignees. Evidence of this is contained in [redacted] (IN 03522), wherein it states, "Confusion over procedure caused error - SOP now established."

2. Previously movements of this kind involved a word of mouth passing of information through several people which included long distance telephone. In the future, information will be passed to consignee by cable.
